

Mockup Review Notes

Creative Director: Vivienne Chung

Designer: Riley Perry

Mockup A - rounded

Mockup B - more structured

Rectangular images give a cleaner look, more structured

Rounded images fit the theme more→ I think going with either would work, but I personally enjoy the rounded images more.

Mockup B is working really well in terms of font, and structure (image at the top of the page with translucent color overlayed

→ A mixture of the rounded images and image layout of Mockup A would be nice

→ Using font choices from Mockup B fits with the theme of Nara Park more.

Mockup A is working well in terms of nav bar, image layout

→ Mixing the top part of the website from Mockup A and B with the image of the park showing, and also having the rounded buttons for the Navigation Bar.

I think having a mix of both Mockup A and B would be beneficial for the final website design, incorporating the rounded buttons from Mockup A and the font choices from Mockup B
